Who we are

Tiny Giants is a storybook-and-games world for small kids, with a calmer control room for the grown-ups looking after them. One brand, two voices: **loud and playful** for children, **clear and quiet** for adults.

Playful

Chunky shapes, bright colour, things that squash when you press them.

Safe

Big targets, no tricks, nothing scary. Kids can never get lost.

Warm

Cream paper, plum ink, friendly words. Never cold or corporate.

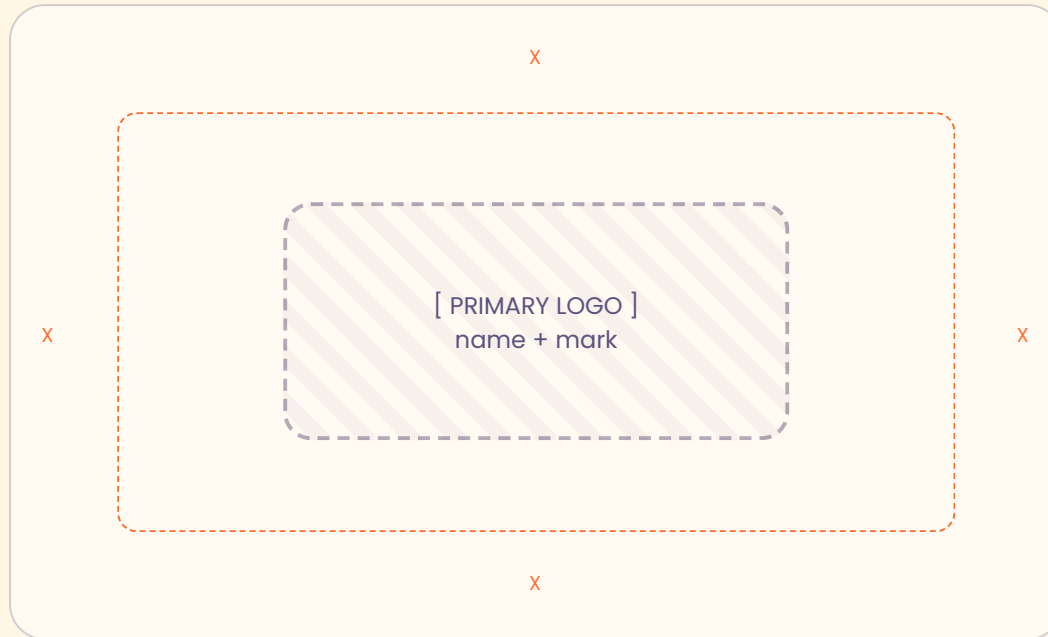

VOICE IN ONE LINE

Talk to kids like a kind storyteller.
Talk to adults like a calm friend.

HARD RULES

- **16 px is the floor.** Nothing renders smaller, even if you ask.
- **Line height is 1.3** times the size, unless it's a big title.
- **Respect system text size**, capped at 1.4x so landscape screens don't overflow.
- **Left-align** paragraphs. Centre only short labels and buttons.
- **Text is Night plum** on light, white on blue or plum.

Primary	The one thing we want a child to do next: Play, Next page, Start.

Icon only	Familiar actions: sound, home. Must have an accessibility label.
XL	Hero action on a screen with little else.

- Fully round pill, never square corners
- One primary button per screen
- Label is Talina, Night plum

BUTTONS

FILTER PILLS

WHEN TO USE

CONTROL	USE IT FOR
Primary	Confirming: save, add, continue.
Secondary	Cancel, back, anything optional.
Pill	Filtering a list. Not for actions.

- 48 px tall minimum, 16 px SemiBold label
- Flat. No chunky edge, no bounce
- Pill-shaped, same as child side

Never mix them. A chunky lime button in the grown-up area, or a flat blue button in the child area, tells the user they're in the wrong place.
